SENATE. FRIDAY, March 25, 1870. QUESTION OF PRIVILEGE.

Mr. Graham arose and said : Mr. President :- Some time ago I stated that ! believed the remark in the report of the Governor and Superintendent of Public Works in relation mington, Charlotte and Rutherford Bailroad, (it appears that one million of dollars in bonds were disposed of at a fraction over 43 cents on the dollar, while others were realizing between 50 and An act declaratory of the cases to which an act | 60 cents for State bonds,) was not correct and entitled "an act concerning the settlement of the | was intended and calculated to do injustice. By reference to page 64 of the report of "Bragg was out of the way he would press his general Committee," it will be seen that the bonds sold at an average price of very nearly 50 cents on the dollar. Leaving out a sale of 200 made by Soutter & Co. agents, to meet a payment which it was when the Supreme Court had made up its first opinion in the University Raitroad case, they will Governor and Superintendent would refer to, are more than 45 cents and not 43, as Gov. Holden reports. Apply this rule to all the bonds which are returned in Gov. Holden's report, and it will be seen that those sold for W., C. & R. R R average quite as much if not more than other bonds of the same date. It is not fair to comreasons. 1st, That there was no short interest the new citizens. to be deducted from those of 1868. 2d. just issued what they term a Testimony Circular, which is certainly remarkable as presenting such an amount of testimony to the excellence of their instruments. It contains six large newspaper pages, closely printed, and thus includes as much matter as an ordinary duodecimo volume. Nearly one thousand persons, most of them experts in the matter, testified to the rare excellence of the cabinet organs made by this company. The character of the testimony is indeed quite as remarkable as as its quantity. Nearly all the most prominent musicians in the country are quoted; the principal organists, pianists, and teachers of chief American cities are among those say that these are the best among instruments of the class. A number of well-known \$25 European artists testify to the same effect. Extracts are given from Paris and London papers which admit that these organs are superior to those of European make. American newspapers are equally emphatic. But what is, perhaps, even more satisfactory, is the testimony of hun-
